

**WE ARE  
RECRUITING**

# **ELECTRICIANS MILTON KEYNES**

**Are you a qualified Electrician with experience in commercial electrical installations?**

... we now have a fantastic opportunity for someone to join our Site Team as an Electrician. If you are interested in working on construction or commercial sites and have commercial electrical experience, then we would be interested in speaking with you.

The job will provide varied opportunities to work on commercial installations, as well as the chance to help with regular maintenance and fault finding. There is an excellent network of professionals amongst our teams that will support you as you get to grips with the role.

The role involves working on installations and construction sites around the country. You will be working on client sites and will be expected to assist in ensuring the works are done on time to the highest standards. Working with our Site Team will require a collaborative approach and you will eventually be required to work independently, as you grow in the role.

... if this sounds like you then please email [recruitment@rsr.co.uk](mailto:recruitment@rsr.co.uk) with your CV.
