

We set out  
to **design**  
and **deliver** a  
**high-spec** full  
**turnkey** project.

## Kinetic Solutions

Industry: Technology

---

Kinetic Solutions is a Milton Keynes-based technology company and is the leading provider of software for events management and student accommodation. professionals. They have experienced a high level of growth and needed to move into a new office space which reflected their ambition as a business and which gave their staff a unique and creative environment in which to work.

RSR was introduced to Kinetic through a recommendation, based on our ability to create an inspiring design for the new Kinetic office, and deliver on that vision. In order to give the client a feel for what their space would look like we created full 3D visuals of the offices, including fly-through videos. We agreed a 7-week programme with Kinetic, and handed the space over to them on time, meaning their business operations would be minimally disrupted as they moved into their new space.

### We set out to **design** and **deliver** a high-spec full turnkey project.

This was a high-end project which showcased RSR's creativity and quality of service. High-spec feature walls, curves and smooth lines, a quality kitchen and tea-point area and even a live foliage wall helped to make this space stand out from the crowd. RSR's proactive and responsive approach were key to the success of this project. Using our core principles of cost efficiency, technical expertise, as well as high quality project and site management gave us the ability to adapt and flex with any changes required throughout the project.

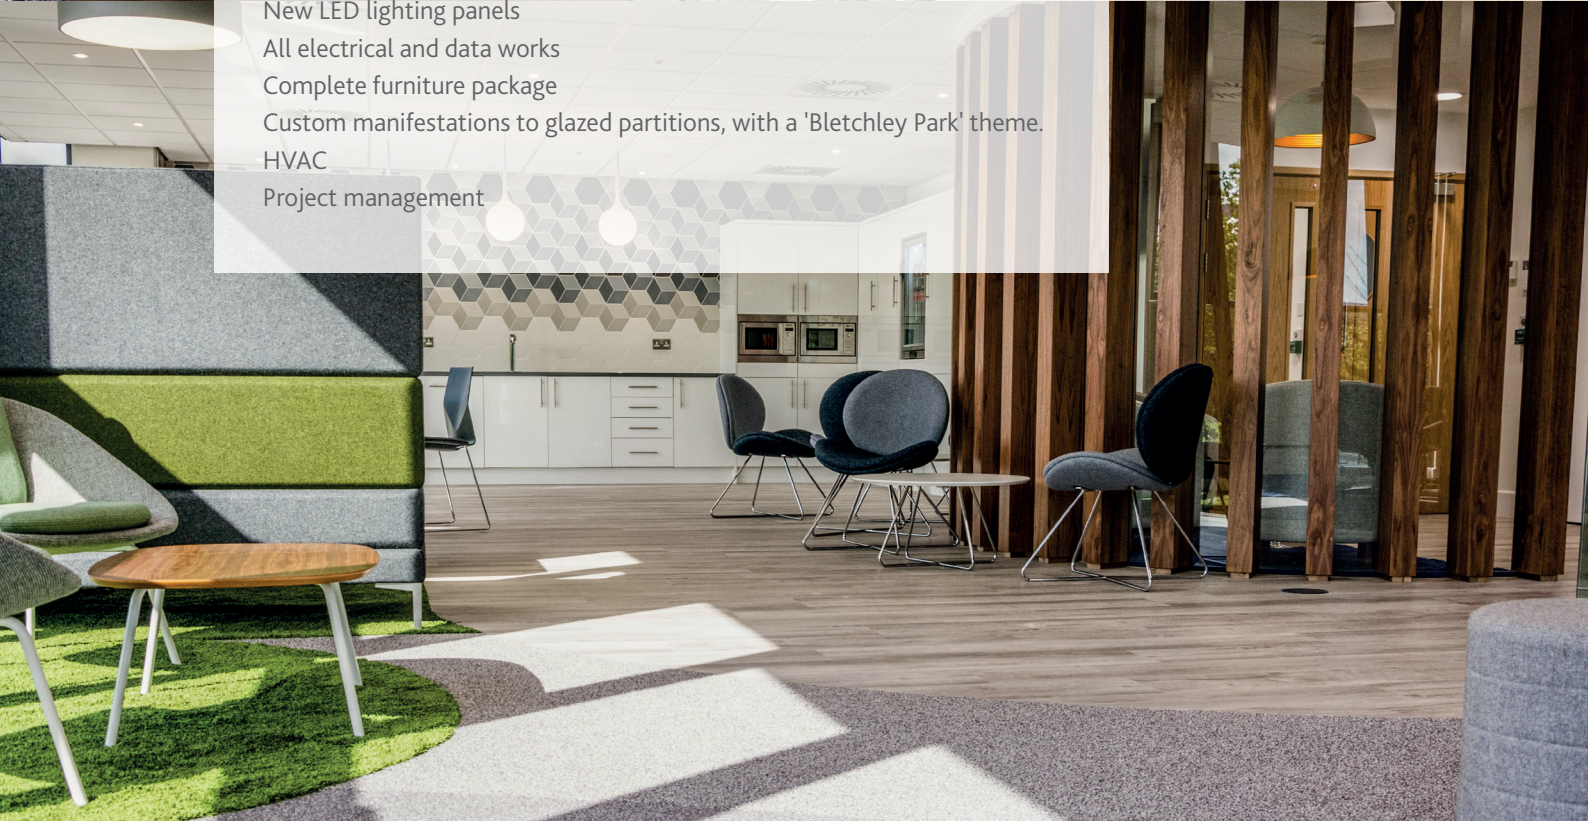

## Scope of works

Design, Supply and Installation of the following.

- New suspended & MF ceilings
- Feature walls including a curved walnut slat wall and a 'live plant' wall
