

eCommerce

RSR were instructed
by a **Global Ecommerce
Giant** to install and build **Fleet
Service Centres** at their busy and
Live Operational Sites
all around the country

Project Length: 12 weeks

May 2025

Various Locations

Throughout the early design stages of the FSC projects, RSR worked in close collaboration with the client to ensure that all requirements were clearly understood and integrated into the planning process. This proactive engagement allowed us to align our technical solutions with the client's operational goals from the outset, fostering a strong partnership built on transparency and trust. A significant challenge of these projects was executing works on busy, live operational sites.

RSR successfully navigated this complexity by implementing robust planning and coordination strategies. We maintained continuous communication with the site teams to ensure that all construction activities were carried out without disrupting daily operations.

Safety remained a top priority throughout. RSR implemented stringent health and safety protocols, working hand-in-hand with the client to uphold a safe working environment for all personnel. Our team adapted to the dynamic nature of the sites, ensuring that both our workforce and their staff could operate safely and efficiently during the project lifecycle.

Working on Live Sites included

- Phased CDM areas installed
- Temporary traffic management systems in place around the CDM
- Additional traffic signage
- Working hours around busy operational times

The collaborative and safety-first approach not only ensured the successful delivery of the FSC projects but also reinforced RSR's commitment to excellence in complex, high-stake environments.

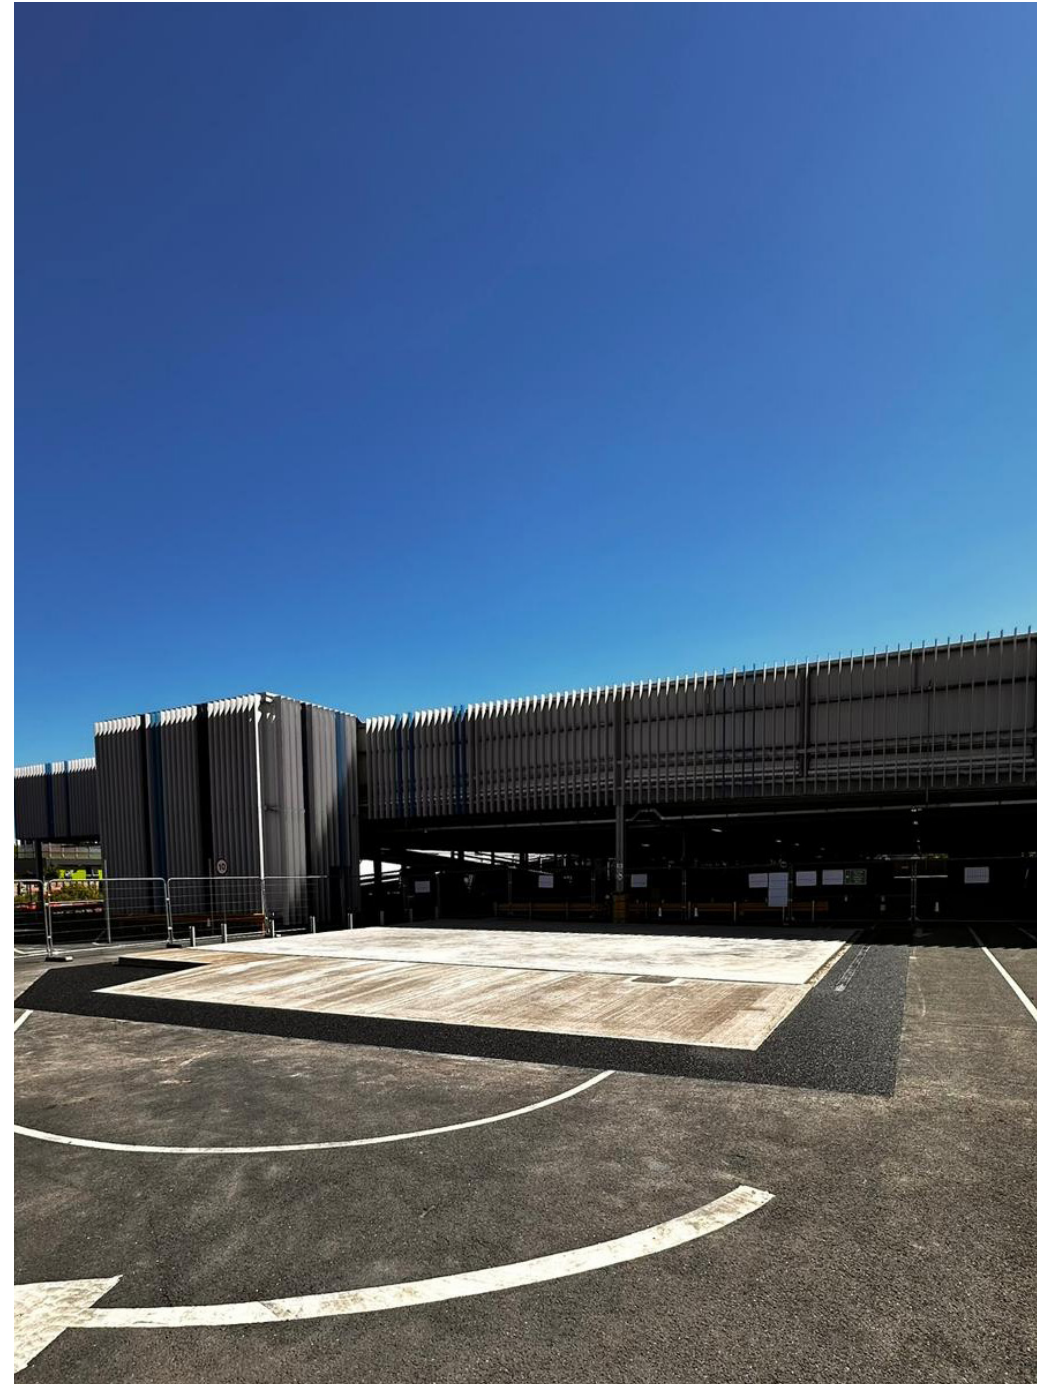

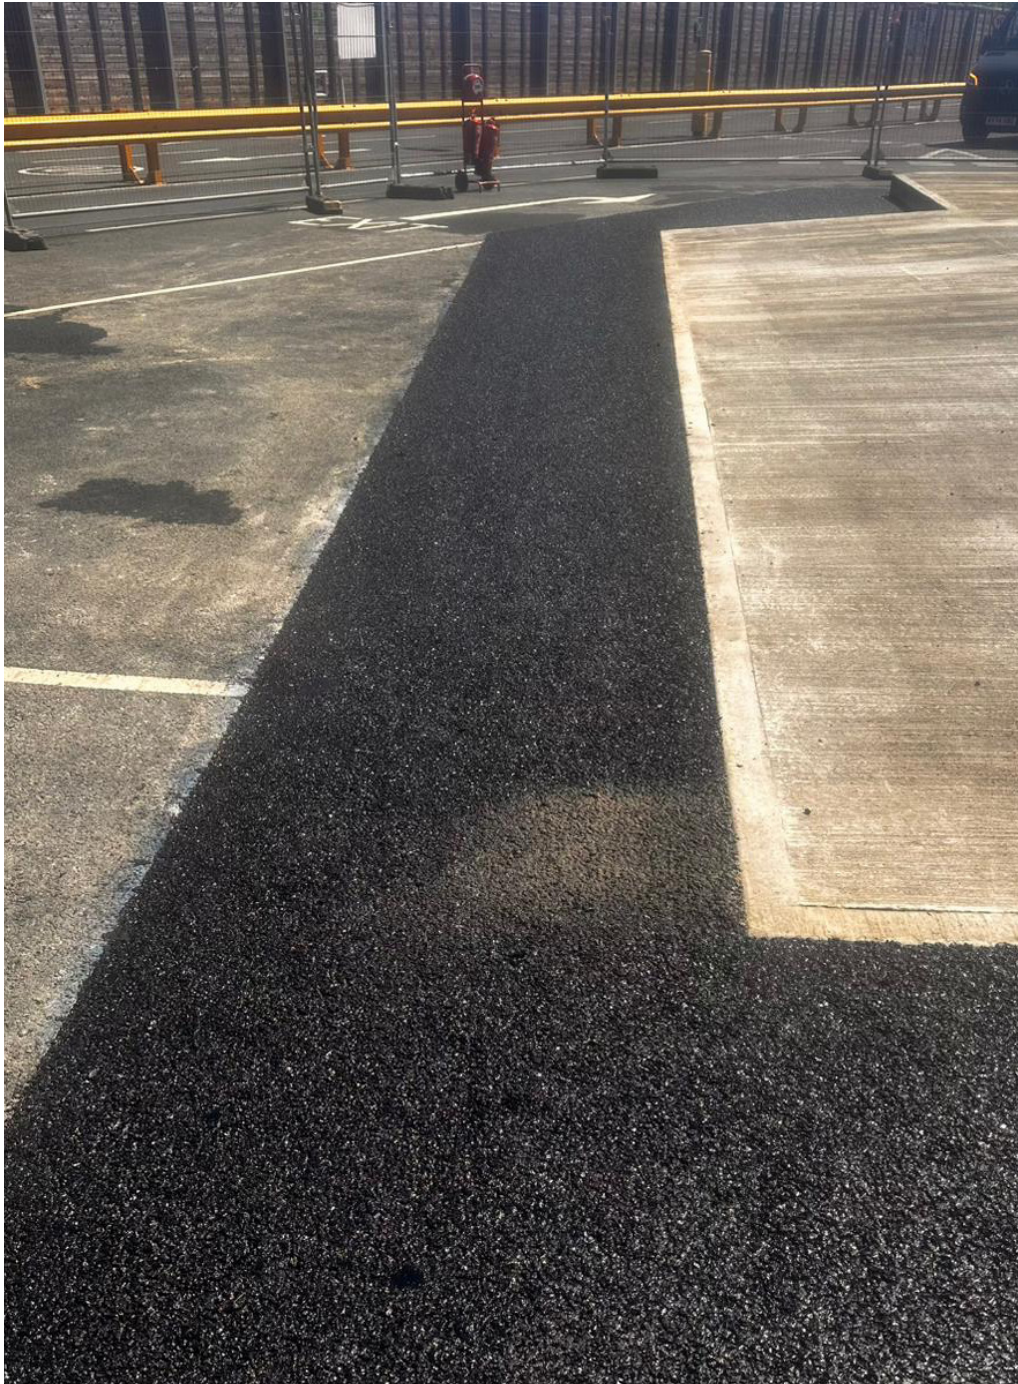

Scope of works

Scope includes :

- Initial ground investigations
- Full project design
- CDM set up
- Principal contractor role
- Civil works to include Main Structure/Pad foundations, trench works for services & drainage
- Power, Network and Fire Alarm infrastructure
- Removal of existing and installation of new road markings
- New protection barriers and signage
